

IRRDB-MRB
WORKSHOP ON
STANDARDS and QUALITY

AS Essential Approaches for Producing Quality Rubber Products

Venue : Academy Hevea of Malaysia, Malaysian Rubber Board, 47000 Sg. Buloh, Selangor,
Malaysia

Date : 13 - 17 May 2013

The IRRDB in collaboration with the Malaysian Rubber Board (MRB) will organize a 5-day workshop on the importance of standards and quality in rubber processing and downstream industry.

The workshop will be a good platform to enhance understanding and awareness on the applications of standards and quality in the processing of rubber and manufacturing of rubber product. It will also include key activities and requirements in the development of standards and conformity assessment. The participants will also have an opportunity to be involved in testing rubber products in accordance with international standards.

The workshop will include a visit to a SMR rubber processing factory and a rubber product manufacturing facility. This will expose the participants to the industrial practices involving standards and quality in the rubber industry.

OBJECTIVES

- 1) To enhance understanding and awareness on the importance of standards and quality in the processing of rubber and the manufacturing of rubber products
- 2) To provide hands on practical sessions on operation of testing laboratory and conformity assessment activities
- 3) To share experience and promote awareness of standards development and quality in rubber products manufacturing

Scientists from the IRRDB member institutes involved in processing and rubber product manufacturing especially related to the development and maintenance of standards and quality assessments are encouraged to attend. The IRRDB Secretariat with the cooperation of the Academy Hevea (MRB) will assist in the arrangement of accommodation. Participants will have to pay for their room at RM80 per day. Meals will be provided.

Kindly complete and return the REGISTRATION FORM by EMAIL to the IRRDB Secretariat before **29th April 2013**.
